Course Description:

This course is designed for students who have no prior knowledge of Japanese. The course focuses on the performance of spoken and written Japanese in class. You will acquire culturally and linguistically appropriate behavior which will enable you to establish smooth communication with native speakers of Japanese. In addition, the course also offers you some basic strategies for reading authentic Japanese materials.

Course Objectives:

The goal of this course is to give you the ability to communicate with native speakers of Japanese in authentic Japanese both orally and in writing. In this course, you will learn not only basic vocabulary and structural patterns but also simple conversational skills such as: introducing yourself or someone else; describing and asking about a location; talking about your daily activities and what you did in the past; expressing your preferences; and making a request. Such conversational skills are practiced in the socio-cultural and context-dependent situations, which are carefully set up to be applicable and natural. In other words, they are normal social situations in which you would be involved in Japan or on campus. The students are expected to have basic grammar, speaking, and listening comprehension skills, as well as reading and writing skills in Hiragana and Katakana by the end of the course.
