Course Prerequisite: PSYCH& 100
Required Text: Fundamentals of Abnormal Psychology (Comer & Comer)
Term: Summer 2021 (Online Only)
Office Hours*: Tuesdays and Fridays from 7:30 - 8:30 am

**Since I do not teach on campus, you can reach me during those hours by email or through Google Voice (626-539-7225). We can always jump into an online chat session if you'd prefer. If that time doesn't work for you, sent me an email and we can coordinate a time to chat. I'm here to help!*

Description and Learning Outcomes

Introduces the theories, diagnosis, and treatment of maladaptive behavior and psychological disorders (Prerequisite: PSYC& 100). After completing this class, students should be able to:

- Articulate the criteria and controversy regarding the definition of "abnormal" behavior including the concept of diversity as introduced by mental health advocacy groups.
- Describe current practices and challenges of diagnosis, assessment, research, and working with persons challenged by psychological disorders.
- Demonstrate familiarity with the current classification system used by mental health professionals. Describe and evaluate the major theoretical approaches and techniques to understanding and working with persons challenged by abnormal or disordered behavior.
- Identify the main diagnostic categories and differentiate among symptoms, proposed causes, and preferred methods for working with persons challenged by major psychological disorders.

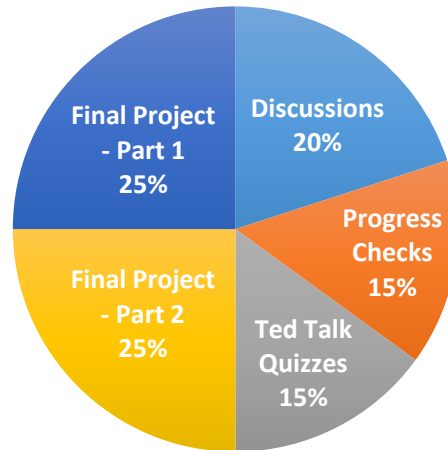

General Course Format

Since you will not have the benefit of an in-class lecture, it is my expectation that you are closely reading each of the assigned chapters in our textbook in addition to my lecture videos and "Start Page" video content.

I want you to be successful in this course - and I'm here to help you be successful in this course! Please don't hesitate to reach out and let me know how I can help you during our time together. *Remember - grades are not given by me, they are earned by you.* Please reach out if you are struggling with anything in this course so that I can help you earn the best grade possible (and hopefully have some fun in the process!).

COURSE REQUIREMENTS

Assignment Type	Percentage of Overall Grade
Discussion Posts	20%
Progress Checks	15%
Ted Talk Quizzes	15%
Final Project – Part 1	25%
Final Project – Part 2	25%

Discussion Posts (worth 20%)

Once or twice a week you will be required to post comments or reflections on the course discussion boards, including responding to several other students' posts. The purpose of the discussion posts is to help students engage with the course material and interact with each other. The discussion posts are also an important way for us to learn from one another. Be sure to review the *Discussion Board Instructions and Grading Rubric* posted on our Canvas site.

Progress Checks (worth 15%)

Every week you will be required to complete a Progress Check quiz, which consists of multiple choice and/or matching questions. The purpose of these quizzes is to gauge your learning and to ensure you understand the concepts under discussion. It is also my way of double-checking that you are reading the textbook and watching the videos posted on our "Start Pages."

Ted Talk Quizzes (worth 15%)

The Ted Talk and TedED videos are a chance to learn about the concepts we're covering in class from a different perspective. The videos allow us to see the psychological principles as they're applied to life outside the classroom. There is a short quiz after each video to ensure that you're watching and understanding the concepts.

Final Project – Part #1: Annotated Bibliographies (worth 25%)

The final project gives students an opportunity to research one particular mental disorder in more depth. You are to choose one mental health disorder from our textbook to focus your research. The first part of the project is to research the disorder and create three (3) annotated bibliographies. An annotated bibliography is a summary and/or evaluation of your research sources (e.g., books, journals, websites, periodicals, etc.). Be sure to read the detailed assignment instructions, as well as the *Grading Rubric for Final Project* posted on Canvas.

Final Project – Part #2: Case History and Journals (worth 25%)

For part 2 of the final project, students are asked to create a case history for a fictional character who is living with the disorder. You will also create three journal entries that describe life from your character's point of view. Be sure to read the detailed assignment instructions, as well as the *Grading Rubric for Final Project* posted on Canvas.

SUBMITTING ASSIGNMENTS
