#### **Class Hours:**

This course will have 60 class hours, including 32 lecture hours, professor 8 office hours, 8-hour TA discussion sessions, 4-hour review sessions, 8-hour extra classes.

#### **Course Description:**

This course will cover the basic principles of common law contracts. The topics covered will include contract formation (offer, acceptance and consideration), contract remedies, rules of contract interpretation, third party rights, assignment and delegation, capacity to contract, and form requirements (statute of frauds).

This course introduces fundamental law topics, such as contracts, ethics, as well as regulation of environmental issues. Awareness of basic legal principles is one of the best risk management tools for any businessperson. This course will help you examine the ways in which society functions and the potential effects of the legal system on businesses.

### **Course Goals:**

This course will provide a sound foundation for understanding and appreciation of all aspects of Contract Law at a college level. The goal of this course is to furnish students with the basic foundation, information, and analytical tools necessary to grasp the fundamental concepts central to the study of Contract Law, including the legal considerations important to contemporary businesses and business transactions. Upon successful completion of this course, students will: (1) Recognize types of contracts, including formation and modification of contracts; (2) Identify the
